

Getting Started

Submitting your project to Cabinets by Graber

Please provide the following information:

Name:

Daytime Phone Number:

Fax Number:

Email:

Current Address:

Delivery Address:

Remodel or New Construction?

Desired Delivery Date:

For Cabinets by Graber to begin designing your project, we will need some basic measurements from you or your contractor. If you are building a new home, please provide a set of your blue prints. Not submitting blue prints? No problem. We always take final measurements before beginning any project, but we do accept sketched designs to start the process. Just make sure to provide the following information: (measurements can be approximate, plus/minus an inch)

- | | |
|--|--|
| <input type="checkbox"/> Room dimensions or wall lengths | <input type="checkbox"/> Window & door placement, and dimensions |
| <input type="checkbox"/> Ceiling height | <input type="checkbox"/> Appliance placement |
| <input type="checkbox"/> Sink placement | <i>(What appliances will be located where?)</i> |

Once you have submitted the dimensions for your project, your designer is available to assist you with the following decisions. Or if you already have a good idea of what you want, you may submit your answers to the questions below along with your dimensions. Otherwise, your designer will be contacting you to go over the following information:

- | | |
|--|---|
| <input type="checkbox"/> Cabinets to ceiling or to soffit? | <input type="checkbox"/> Drawer style <i>(5-piece or flat slab)</i> |
| <input type="checkbox"/> Wood species | <input type="checkbox"/> Color |
| <input type="checkbox"/> Door style | <input type="checkbox"/> Desired accessories |
| <input type="checkbox"/> Finish | <i>(roll-out shelves, cutlery divider, spice racks, etc.)</i> |

Please submit your project details via email, mail or fax. Also include any photos, magazine tear outs etc. of items that you would like incorporated into your project. If you have suggestions, ideas or comments about the design of your project, we welcome and encourage your input! Contact your designer with any questions; he or she will be happy to help you through any part of this process. We look forward to the potential opportunity to serve you!
